Chrono

Attached herewith is an executed copy of Change Order No. 1 for subject Resolution. You will note that this Change Order has been hand-carried to the Indiana Stream Pollution Control Board for their review and approval.

Considering the Board of Public Works has approved this document, this Department recommends that the Clerk of the Board schedule on the Common Council of the City of Fort Wayne's docket the introduction of the referenced Resolution for 9 June 1981 for first reading.

The Change Order for this Resolution is a decrease of $2,463.00.

If you should have any questions regarding this change order, please see me personally.

Respectfully submitted,

C. Duane Embury, P.E., Chief
Water Pollution Control Engineer

CDE/ns

Attachment: Change Order No. 1 - Bercot, Inc.

Dated: 6-2-81

Received this date from Water Pollution Control Engineering, the above-referenced Change Order No. 1 to be introduced into Council on 9 June 1981.

CHANGE ORDER

Change Order No. 1
Project No. C-180599-06
Name of Project: WATERSWOLDE, NORTHWOOD, et al

Resolution No. 314-80-Phase II
Board Order No. 15-80
Date: April 1981

To: BERCOT, INC.
(Contractor)

Gentlemen:

You are hereby requested to comply with the following changes from the contract plans and specifications:

Item No.	Quantity	Description of Change Description	Unit Price	Change in Contract Price Decrease	Increase
		"SEE ATTACHED SHEET"			
			Total Decrease	110,935.00	
			Total Increase		108,472.00
		Net (Decrease) (~~Increase~~)	Contract Price	2,463.00	

The sum of $ 2,463.00 is hereby (~~increased~~) (deducted from) the total contract price and the final contract price shall be adjusted as follows:

Original Contract Price	
Current Contract Price Adjusted by Previous Change Order	$ 706,091.50
New Contract Price including this Change Order	$
	$ 703,628.50

The time provided for completion in the contract for this project is (unchanged) (~~increased~~) (~~decreased~~) by -0- calendar days due to this Change Order. The date for completion of all work shall be N/A. Furthermore, this document shall become an amendment to the contract and all provisions of the contract shall apply hereto.

JUSTIFICATION FOR CHANGE ORDER NO. 1
RESOLUTION 314-80 - PHASE II "WATERSWOODLE, NORTHWOOD"
BERCOT, INC., CONTRACTOR

Item #35 and #36

After awarding of contract, the bidding contractor informed the Engineering Department that it appeared that six (6) of the manholes on this project should be drop manholes in liue of standard manholes. The Engineering Department looked into this and found out that drop manholes were needed and were erroneously left out from the bid. Our specifications do call for drop manholes, which are Standard Type VI-A manholes if the drop between pipes is over 30-inches. It is more cost effective to install a drop manhole instead of deepening the sewer and make the drop come out less than 30-inches.

This is a new item negotiated at $2,495.00/manhole and the attached cost breakdown in our opinion justifies it.

ITEMS #29, #30, #36 and #37

Before bidding, the Engineering Department felt that Coldwater Road, which is a main thoroughfare, should be bored and hence, leave it open for traffic. However, the County Highway Department researched the facts of this particular road and requested the Engineering Department that Coldwater Road at the two locations at Wallen Road and Shadyhurst Drive be open cut and not bored. In similar groundwater and soil conditions, the County Highway has experienced voids under Coldwater Road, when previously bored through several years ago. Hence, they preferred open cut to encased boring. The lump sum figure in this change order for the two open cuts have been further justified in detail on the attached sheet.

Item #38 and #20

At a neighborhood meeting, several weeks ago, with Northwood Park residents, the question was raised on the surface material to be put back on the streets. They found out that double chip and seal was proposed for their streets, which they objected to and submitted evidence that the streets in Northwood Park Association are asphalt and not double chip and seal. In order to verify the above case, the Engineering Department took core samples in Northwood Park and Waterswolde Addition and it became evident that Northwood Park has in fact asphaltic surface and not double chip and seal. However, Watersolde Addition does have double chip and seal. To the naked eye, Northwood Park does look like double chip and seal and therefore, the surveying crew at that time did note in their field books in their opinion, it looked like double chip and seal.

Therefore, a new item for 2" asphaltic surface was negotiated at $3.30, which is quite comparable to the price we have received on the recent federal projects.

JUSTIFICATION FOR CHANGE ORDER NO. 1
RESOLUTION 314-80 - Phase II - "WATERSWOLDE, NORTHWOOD"
BERCOT, INC., Contractor

ITEM 39 and 12

In this project #53 or #73 special backfill was incorrectly specified on plans.

Since the specifications do state that: "All sewers installed under improved streets and running parallel with the streets shall have special backfill ('B' Borrow), and sewers installed across an improved street shall have #53 or #73 special backfill."

#53 or #73 special backfill costs more and, hence, better material than 'B' borrow.

However, in early stages of construction in Northwood Park Addition, the proposed sewer had depths ranging from 15 to 25 feet. Since #53 or #73 special backfill is a better material, and in most instances, gets instant compaction, the Engineering Department made an exception and allowed the contractor to put #53 or #73 special backfill because of the sewer depth in that area. When depths started ranging between 10-13 feet, the Engineering Department and the contractor negotiated a new unit price for "Special Backfill" material to be used on the rest of the project. It is a much cheaper material at the same time meeting the standard specifications for backfilling under streets.

Therefore, this change order reflects a reduced quantity of #53 or #73 special backfill from the original bid quantity and this revised estimated quantity is to cover all the #53 or #73 special backfill already in ground and to be used for street subbase over special backfill. The new estimated quantity for special backfill shall be used for material already in ground and to be used for thre remaining streets for backfill.

The unit cost submitted by the contractor is quite comparable with the unit cost the City has been receiving on the recent Federal Projects for this material.

BREAKDOWN OF TWO OPEN CUTS - Resolution 314-80 - Phase II
St. Joe Study Area

COLDWATER ROAD AT WALLEN ROAD (25' Deep Cut)

80'-15" Pipe @ $21.50	$ 1,720.00
620 CY #73 Stone @ $10.75	$ 4,837.50
80 SY 10" Deep Strength at $19.05	$ 1,524.00
80 SY 2" Surf @ $3.30	$ 264.00
8 HRS Insley 2500-C @ $135.00	$ 1,080.00
8 HRS Ford A-64 @ $74.00	$ 592.00

RE: CHANGE ORDER FOR RESOLUTION 314-80 (II)
IN THE ST. JOE STUDY AREA

Dear Jeff:

Below find a breakdown justification of the unit prices to be added by change order to the above-captioned project:

SPECIAL BACKFILL:

Cost per ton	$2.40	
Haul cost per ton	2.50	
Installation cost per ton	.50	
Total cost per ton	$5.40	
Tons/Cubic yard conversion ratio	x1.65	
TOTAL PRICE PER C.Y.	$8.91	Requested: $8.90 C.Y.

2" ASPHALTIC SURFACE:

MBE Subcontractor's bid to Bercot, Inc.	3.00 ~~$3.30~~	
Standard mark up (10~~15~~%)	.69 ~~.30~~	
TOTAL PRICE PER SQUARE YARD	~~$3.99~~ 3.30	Requested: ~~$4.00~~ 3.30 S.Y.

CFW STAN. MANHOLE TYPE VI-A:

(Add these items to bid price for Type I-A)

8" VCP 10' @ 3.40	$ 34.00
8" x 90 deg. ell 1 ea. @ 27.20	27.20
8"x8" tee 1 ea. @ 27.20	27.20
Concrete 4 C.Y. @ 55.00	220.00
Additional cored hole with boot L.S. 80.00	80.00
4x8 sheet plywood 2 ea. @ 20.00	40.00
(Stan. mark up on $428.40)	89.96
TOTAL MATERIAL COST	$ 518.36
ADDITIONAL LABOR	305.00
Add to stan. MH T-I-A	$ 823.36
Price for Type I-A	1,670.00
TOTAL FOR TYPE VI-A	$2,493.36

Requested: $2,495.00

Sincerely,

BERCOT, INC.
